Set up of the Committee: **December 2009.**

Composition explanation: The Committee is composed by the coordinators of 5 cities and the Lead expert.

Aim of Steering Committee's set up: to ensure constant coordination, efficacious communication with partners, URBACT Secretariat and Lead Expert. To solve any kind of problem or delay occurred during project implementation (risk analysis and contingency plan). It acts in order to carry out and achieve the relevant planned objectives. It is responsible for strategy and decision-making and evaluation and decides at majority voting.

First activity: share of contact details (email, phone number, fax number, other) to communicate and act as Steering Committee. List and first contact provided in December 2009. Decision about substitutes in case of absence or not availability of members.

Main issues raised needing the Steering Committee decision:

- revision of project budgets according to URBACT recommendations
- agreement on the selection of partners for the Implementation Phase
- changes internal to project partners' organizations concerning staff and their subcontractors
- difficult communication between some partners
