NODUS

Linking Urban Renewal and Regional Spatial Planning

Project part-financed
by the European
Union

NODUS is a working group within URBACT II programme

NODUS goals are:

- ▶ helping public agencies, often belonging to different administrative levels, to integrate area-based urban regeneration with regional or metropolitan sectorial policies that have a spatial impact.
- ▶ developing a series of recommendations and tools to coordinate area-based urban regeneration policies and regional or metropolitan planning.

Localisation of the 7 partners

NODUS working group
BARCELONA KICK-OFF MEETING

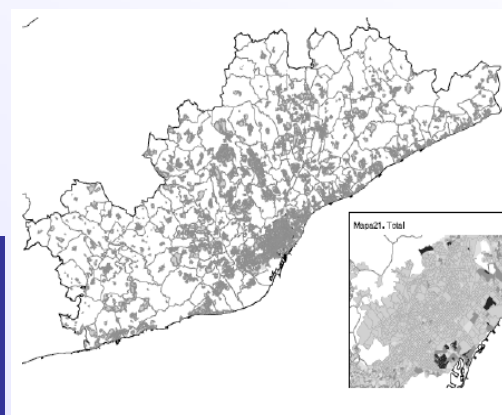

Which are the feedback effects between strategic/spatial planning and the definition or the impact of local urban renewal projects?

Are spatial planners taking into account local urban regeneration policies as an input in their work?

Linking Urban Renewal and Regional Spatial Planning
