Entities and Agencies

The Malta Environment and Planning Authority (MEPA) is the national agency responsible for land use planning and environmental regulation in Malta. Established under the mandate of the Environment Protection Act (2001) and the Development Planning Act (1992) of the Laws of Malta, MEPA is also responsible for the implementation of around 200 Directives, Decisions and Regulations under the EU Environmental Acquis.

The Malta Resources Authority (MRA) is a public corporate body with regulatory responsibilities relating to water, energy and mineral resources in the Maltese Islands. It was set up by the Maltese Parliament through the Malta Resources Authority Act of 2000. The MRA has wide ranging responsibilities essentially involving regulation of water and energy utilities, industrial enterprises exploiting resources such as oil exploration, quarry operators and private abstractors of groundwater, retailers, operators and tradesmen in the regulated sectors.

Heritage Enterprise (H.E.) was launched in April 1999 based on a Building Preservation Charity. Formed to identify, rescue, repair, restore and rehabilitate historic or architecturally significant buildings H.E. endeavors to extend the life of these assets through adaptive re-use. Additionally H.E. provides a professional consultancy service for architects, engineers or other professionals working in the field of heritage management adhering to International Charters and Conventions. Its main mission is based on disseminating and encouraging 'best practice' in heritage management and conservation through restoration and rehabilitation projects, education, research and training.

WasteServ Malta Ltd. was established in November 2002. The company is responsible for organizing, managing and operating integrated systems for waste management including integrated systems for minimisation, collection, transport, sorting, reuse, utilisation, recycling, treatment and disposal of solid and hazardous waste. WasteServ Malta Ltd. operates integrated systems for export of waste to destinations outside the Maltese islands. The company operates integrated systems for waste management in accordance to the Law of Malta. It is responsible for the waste management policy and plan of the Government of Malta while observing internationally recognized waste management principles.

Enemalta Corporation offers a broad range of services to both the industrial, commercial and domestic sectors in the energy field. Set up in 1977 the Corporation today undertakes a broad range of operations, incorporating the importation and distribution of petroleum products and liquefied petroleum gas as well as the generation and distribution of electricity to all sectors of Maltese society. Throughout the years, the Corporation has been instrumental in pioneering the usage of new technology to reach its corporate objectives whilst at the same time offering better products and services. The last few years have seen the Corporation extending and consolidating the electricity transmission system whilst upgrading its generation facilities. At the same time, Enemalta is bracing itself to face the challenges of globalisation and a fast developing new world economy. Today, the Corporation is becoming more focused on environmental considerations to create a safer and more sustainable habitat for the Maltese people.

Fondazzjoni Wirt Paola – Paola Heritage Foundation is a voluntary non-governmental organisation established in 2009 to spur the management of heritage assets both tangible and intangible of the Council area of Paola. With its inception the Fondazzjoni Wirt Paola was commissioned with the management of the War Shelters in Santa Ubaldesca and is striving to create management plans for other assets through awareness events, educational events and pro-active hands-on heritage management.

Fondazzjoni Wirt Artna – The Malta Heritage Trust is a voluntary non-governmental organisation active in the field of heritage preservation. It looks after several historic buildings and sites in Malta, all of which are open to the public. Its properties cover 7,000 years of Maltese history, from pre-history to the 20th century. These range from a megalithic temple at Kordin to a great baroque gate once serving as the main entrance into the imposing 7km long Cottonera bastioned ramparts; and from a Victorian fort armed with the world's largest cannon to 20th century concrete defences. All sites are cared for by a combination of paid staff supported by volunteers. The latter, freely dedicate much of their time and effort to maintain these sites to the highest order possible.

Din l-Art Helwa, National Trust of Malta, is a non-governmental, not-for-profit, voluntary organisation founded in 1965 to safeguard the historic, artistic and natural heritage of Malta. Since its foundation, Din l-Art Helwa has restored and managed numerous cultural sites of immense historic and environmental importance. We promote the preservation and protection of historic buildings and monuments, the character of our towns and villages, and places of natural beauty and importance and the flora and fauna of such places, especially in relation to the problems arising from modern urban development. We stimulate the enforcement of existing laws and the enactment of new ones for the protection of our natural and built heritage.
