METROPOLITANA  
Városfejlesztő Műhely

futurecitygame

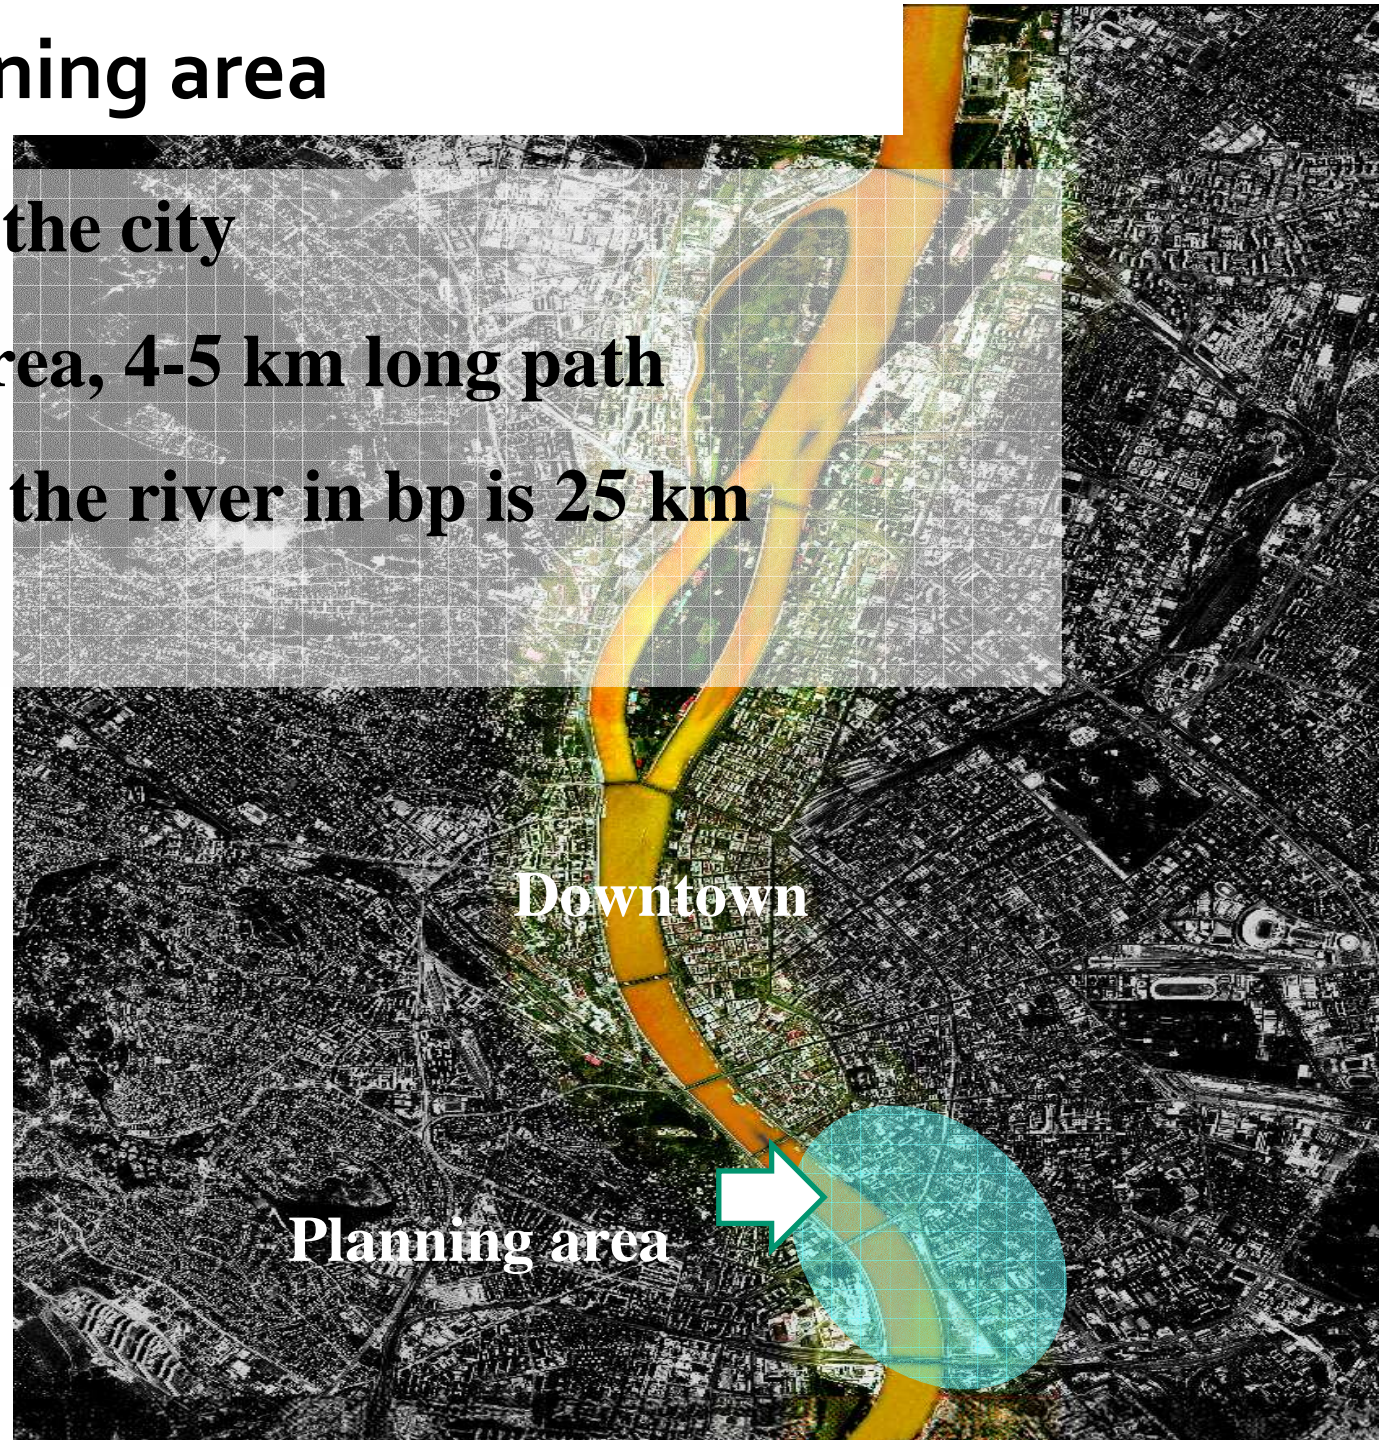

# Theme of the Future City Game

- River Danube's role in the city structure of BP.
- Flows across the capital, determinant element
- River bank is highly underused, hard to access, hot topic for ages

# Concrete planning area

- One district of the city
- Middle sized area, 4-5 km long path
- Hole lenght of the river in bp is 25 km

# Purpose of the game

□the aim of the game-get fresh impressions from the young generation in the topic of Danube bank renewal for the Danube main street Development Programme

□reviwe the river in people”s mind

# Players of the game

- mainly players between 20 and 30 were invited, attracted to take part in
- formed teams in a mixed way
- established the background of complex solutions

# Creative ideas of the Danube FCG

whirl project

thematic dock islands

# Succes indicators
