The session was opened at 09:00 by Mr Spyros Papouis, the mayor of Athienou Municipality welcomed all to the first National Conference of URBAN N.O.S.E. project. He also explained how Athienou participates in the URBAN N.O.S.E project.

Afterwards, the chairman of Larnaka District Development Agency, Mr. Spyros Elenodorou, addressed short greetings and pointed out the importance of attendance of the Municipality in such a programme.

Following, it was made the presentation of the Municipality of Athienou from the teacher and member of the Urban N.O.S.E. Local Support Group, Mrs. Despo Poygerasi.

Mrs Despo Poygerasi in her presentation reported about the background of the Municipality of Athienou, the economic and cultural activity, the archaeological spaces, the works that have been manufactured but also the work that is still under study, as well as the European and co-financed programmes in the area.

Afterwards, the Lead Expert Mr. Sergio Campanella, made the presentation of the Urbact Programme 2007-2013. Questions, answers and debate.

After a rapid coffee-break, Mr. Sergio Campanella made the presentation of the Urban N.O.S.E. project and explained all the details about the project itself. Questions and answers, with large debate.

Mrs Anna Kosma from the Local Development Agency of Larnaca, made the presentation sent by Mr. Vangelis Papadakis from the University of Ioannina, in fact, due to personal difficulties, he could not attend the meeting. The title of his presentation was "Creation, organisation and operation that aims to a viable local growth".

It followed a lunch, from 13:30 to 15:00, for all the assisting people in a local restaurant.

Afterwards the lunch, the meeting was continued with special laboratories in which were given chances to the attending persons not only in order to assisting, but also to actively participating to a rich, well-animated and interesting debate.

The subjects dealt with in the laboratories were, above all, ***the way of managing the operation and attendance in the Local Support Group***, as well as ***the way of better structuring a "tailor-made" Local Action Plan***.

It was engendered a rich and fruitful debate: Mr. Spyros Papouis, Mayor of Athienou and Mr. Sergio Campanella, Lead Expert of the project, answered to all the questions.

The session was closed by Mr. Papouis at 18:30.

Sergio Campanella
