

World Bee Day 2022

in Bansko from April to June

PLANT A TREE – SUPPORT BEEKEEPING

The events related to World Bee Day were born out of our love for bees and the desire to reach as many people as possible with our message about the importance of bees in the ecosystem. Planting a variety of plants supports the emergence of more diverse animal species, including pollinators. Plant diversity means more food for bees.

The Municipality of Bansko together with the Beekeeping Society ROI and ULG members is organizing a campaign for planting melliferous trees, and for this purpose we distributed over 200 species in support of urban beekeeping - linden, ash, golden rain. The policy of the Municipality of Bansko is to continue to expand the green areas and plant different types of shrubs and trees suitable for pollinators.

Local events linked to WBD 2022

The municipality of Bansko, through its local bee-friendly network, is carrying out several exciting activities from April to June:

- ✓ **Week of the forest** - to increase the green system of Bansko in 2022 the Municipality of Bansko is planning to provide free melliferous saplings to anyone who wants to support beekeeping and plant melliferous saplings in their garden.

Location and date: 7th April 2022, Tourist information center

Organization: Municipality of Bansko and Beekeeping Union ROI-BANSKO
