

Nuri Palmada

We are

- + a non-profit green energy consumption cooperative
- + driving activities for the commercialisation and production of renewable energy
- + committed to promoting a change of the current energy model to achieve a 100% renewable model
- + about **84.000 partners** and we manage about **118.000** contracts of electricity supply

20MWp
35 GWh/year

OPCIONES DE PRODUCCIÓN

Autoproducción

Adquiere una instalación fotovoltaica para tu tejado o terraza a través de una de las compras colectivas modelo llave en mano. Si vives en un bloque de pisos, te explicamos cómo conseguir la instalación paso a paso.

Más información

Capital social

Aportaciones voluntarias al capital social, para poner en funcionamiento proyectos de generación renovable y ayudar al desarrollo de la cooperativa.

ABIERTAS

Generación kWh

Aportación de autoproducción compartida para generar tu propia electricidad durante los próximos 25 años. Donde se garantiza que la aportación será devuelta y el acceso a electricidad producida a precio de coste.

ABIERTAS

REScoop

What is it?

REScoop.eu is the European federation of citizen energy cooperatives.

We are a growing network of 1.900 European energy cooperatives and their 1.250.000 citizens who are active in the energy transition.

The REScoop model

REScoops are energy cooperatives, a business model where citizens jointly own and democratically control an enterprise that works on renewable energy or energy efficiency projects. We also refer to REScoops as citizen or renewable energy communities.
