INTRODUCTION

The following document is a guide to completing the URBACT IV Application Form for Innovation Transfer Networks in SYNERGIE-CTE. It explains what is expected from the applicant and indicates where further information can be found.

This Guide for Applicants should be used in conjunction with the [URBACT IV Cooperation Programme](#), the [URBACT IV Programme Manual](#), the Terms of Reference of Innovation Transfer Networks application procedure and the Guide to URBACT Innovation Transfer Networks.

The Application Form has been designed with the eligibility criteria and assessment criteria in mind, therefore applicants are advised to consider these criteria when completing the form.

**The deadline to submit the Application Form is
20 March 2024, 15:00 CET.**

We strongly recommend that you prepare your project proposal as a WORD document for the larger 'free text' sections before entering data in SYNERGIE-CTE to avoid problems with saving. The budget can also be prepared in advance using our Budget template ([available in the call page](#)).

Please use the template documents available online and in annex of the Terms of Reference.

This document aims at providing guidelines for Lead Partner completing the Application Form on the SYNERGIE-CTE platform. The Lead Partner is in charge of the application for the whole network. The partners do not have access to the platform until the project is approved.

We highly recommend you to gather all the information from your partners before starting the application process. You need to foresee enough time to fill in the entire application form and by having the information beforehand you will be able to follow each step smoothly.

Submitting an application takes a lot of time. You can save as you go along and complete the information in several steps. Do not underestimate the time needed to prepare a high-quality application.

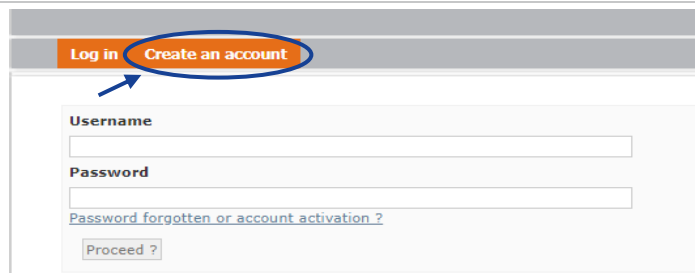

Finally, in the rest of this guide, please note that:

- Indications preceded by “🔑” are steps to be taken by you.
- Indications preceded by “!” are information/tips to help you proceed.

1. CREATE / LOG INTO YOUR ACCOUNT IN SYNERGIE CTE

The first step to submit your project proposal through SYNERGIE-CTE consists of creating the Lead Partner account. You can do this by choosing a log-in and password, which will allow you to enter the system and work on your application at any time until the submission deadline 20 March 2024, 15.00 pm CET. In any case, connect to SYNERGIE-CTE by using the following link: <https://cte-2127.synergie-europe.fr/>

! We recommend you to use the browser Mozilla Firefox or Google Chrome as you might encounter some difficulties with the SYNERGIE-CTE system if using Internet Explorer.

Step 1a. Create an account

The home-page will appear.

👉 Click on “create an account” on the top bar.

The screen appears.

👉 Click on “create a user account for the programme URBACT IV”

! If the screen appears in French, click on the UK flag on the top right corner to go to the version in English

Step 1b. Create your SYNERGIE Account

This screen appears: “Create a user account for the programme URBACT IV”.

As a candidate Lead Partner under URBACT IV you have to create a new account 21-27 by clicking on “You do not have a user account for SYNERGIE CTE” and clicking on “Proceed” button.

Please note that your potential precedent account on SYNERGIE CTE 14-20 is not valid on this new platform.

Create a user account for the programme URBACT IV

If you are already a lead partner in this programme, please connect normally using your existing login and password

- ☐ You already have a user account on a project as a partner but not as a lead partner
- ☒ You do not have a user account for SYNERGIE CTE

Step 2. Create/Select an organisation

This screen appears: “Search for an organization from the cross-programme database”

As a candidate Lead Partner, you are requested to provide information on your organisation.

At this stage, there are 2 possibilities:

- Your institution already exists in the system, and you have to select it in the list available
- Your institution does not exist and you have to create it

In order to check if your organisation already exists, use the fields to **Search** for it.

Start searching for your organisation using the “Country” field. For example, “Italy”.

! If you find your organisation, PLEASE DO NOT CREATE IT AGAIN.

It can happen that the organisation has already an administrative code with type of code “N° gestion interne prog.”: this is not an issue, you can select it.

If the type of code is “TIN” or “IVA” or “Codice fiscale”, etc., please check and ensure that the administrative code is correct.

✎ If your Organisation already exists, click on **Select** and go to **Step 4. “Create a contact”** (below).

✎ If your organisation does not already exist in the database, click on **Add an organisation to the database** and go to **Step 3. “Create an organisation”** (below).

Once saved, your work plan should look like this – with the deliverables listed in the Work package table, after Deliverables. No deliverable should appear in WP1.

Please make sure that the dates (on the right hand of the screen) of the Work Packages as well as the list of deliverables are correct.

When indicating the numbers of deliverable per year in a particular Work Package, you will see all the deliverables already added for the other Work Packages. Please ensure you only add numbers for the selected Work Package and ignore the deliverables from other Work Packages.

For example, for WP2, only add a quantity per year for the WP2 deliverables and ignore the others to be delivered under WP3.

Also make sure that all partners are linked to all Work Packages.

IMPORTANT

If the project is approved, partners not listed won't be able to claim costs for a Work Package they are not linked to.

Once again, please do not add any activity/objective at the bottom of the page.
