

CHANGE! Detectives (critical friends)

Peer review scoring sheet related to local (Amarante) initiatives

Today we are getting to know interesting local initiatives from Amarante (1. social innovation mapping "Habitat Project"; 2. Urban Innovation Lab: AmaranteInvest; 3. Youth centre; 4. Youth council and Youth participative budgeting; 5. University of Amarante Seniors). All participants of peer partner cities are asked to be detectives (critical friends) during the day. Based on your experience and background, you should behave as a detective and take the opportunity during the whole day (during presentations as well as coffee breaks and meals) to ask questions from local stakeholders you meet today. Please try to watch behind the scenes! At the end of the day you are asked to share your comments, ideas and suggestions related to insight, brokerage and design or related to questions asked by the host city. To summarize your comments, please use the below table!

For your information: Amarante had to focus on the aspects of insight, brokerage and design during the presentations (by using more or less the same questions you had in workshop 1 in the morning). Scoring: 4-5: good or very good, with some room for

improvement; 1-2: requires more attention; 3: neutral; 0: not relevant to the project.

| Project | Insight | | | Brokerage | | | Design | | | Other comments |
|---|--------------|-------------------|-----------------------------------|--------------|-------------------|-------------------------------|--------------|-------------------|-------------------------------|----------------|
| | Score 1-5 | What is done well | What should be improved (and how) | Score 1-5 | What is done well | What should be improved (how) | Score 1-5 | What is done well | What should be improved (how) | |
