

**Authorised species list – Nature playgrounds for nurseries – Ville de Lyon
(September 2025)**

Latin name		Common name	Type	Size	Evergreen/Deciduous	Sun exposure	Flowering	Fruiting	Water requirements	Local	Invasive	Risk analysis	Status	Recommendations
Genus	Species						Season	Berry						
Acer	campestre	Field Maple	Tree	12m	Deciduous	Sun	spring	no	Moderate	Yes		In autumn the samaras fall to the ground. Low toxicity level. These species present a moderate allergenic risk.	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces. * Diversify species (should not be the dominant species).
Acer	monspessulanum	Montpellier Maple	Tree	10-15m	Deciduous	Sun	spring	no	Dry	Yes*			Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces. * Diversify species (should not be the dominant species).
Acer	opalus	Viburnum-leaved Maple	Tree	8-12m	Deciduous	Sun-Shade-Partial shade	spring	no	High - Low	No			Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces. * Diversify species (should not be the dominant species).
Acer	platanoides	Norway Maple	Tree										Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces. * Diversify species (should not be the dominant species).
Carpinus	betulus	Common Hornbeam	Tree	20 m	Marcescent	Sun-Shade-Partial shade	spring	no	High - Low	Yes		Highly allergenic species.	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces. * Diversify species (should not be the dominant species). * Plant only in large playgrounds (over 600 m²). * Plant sporadically rather than continuously. * If possible, analyse the immediate environment of the planting site to limit excessive pollen concentrations in the atmosphere.
Cercis	canadensis	Canada Serviceberry	Tree	6-7m	Deciduous	de la colonne A+B	spring	no	High - Low	No		Contains saponins, mildly toxic substances.	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces.
Fraxinus	ornus	Flowering Ash	Tree	15 m	Deciduous	Sun	spring-summer		Moderate	Yes		Moderately allergenic species.	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces. * Diversify species (should not be the dominant species).
Liquidambar	styraciflua	American Sweetgum	Tree	20 m	Deciduous	Sun	spring		High	No	Invasive roots	-	Authorised	-
Malus	domestica	Domestic Apple	Tree	4 m	Deciduous	Sun	spring	yes	Moderate	Yes		Consumption is prohibited without a soil contamination assessment	Authorised under conditions	* Soil contamination assessment required for consumption if grown in open ground
Ostrya	carpinifolia	Hop Hornbeam	Tree	16 m	Deciduous	Sun-Partial shade	spring	no	Moderate-Low	Yes*		-	Authorised	-
Parrotia	persica	Ironwood	Tree	10 m	Deciduous	Sun-Partial shade	winter	no	Moderate-High	No		-	Authorised	-
Pyrus	calleriana 'Chanticleer'	Chanticleer Flowering Pear	Tree	11 m	Deciduous	Sun	spring	yes	Moderate-Low	No		Consumption is prohibited without a soil contamination assessment	Authorised under conditions	* Soil contamination assessment required for consumption if grown in open ground
Pyrus	communis	Common Pear	Tree	16 m	Deciduous	Sun	spring	yes	Moderate	Yes		Consumption is prohibited without a soil contamination assessment	Authorised under conditions	* Soil contamination assessment required for consumption if grown in open ground
Sorbus	torminalis	European Mountain Ash	Tree									Produces small berries that are non-toxic but can easily be put in the mouth (risk of foreign body inhalation).	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces.
Tetradium / Euodia	danielli	Honey Locust	Tree	10-15m	Deciduous	Sun-Shade-Partial shade	summer	yes	High - Low	No		-	Authorised	-
Tilia	cordata	Small-leaved Linden	Tree	26 m	Deciduous	Sun-Partial shade	summer	no	Moderate	Yes		-	Authorised	-
Tilia	mongolica	Mongolian Linden	Tree	13 m	Deciduous	Sun	summer	no	Moderate	No		-	Authorised	-
Ulmus	laevis	Smooth-leaved Elm	Tree	35 m	Deciduous	Sun-Partial shade	spring	no	Moderate-High	Yes		-	Authorised	-
Zelkova	serrata	Japanese Zelkova	Tree									-	Authorised	-
Abelia	x Edouard Goucher	Abelia	Shrub	1.8 m	Semi-evergreen	Sun-Partial shade	summer	no	Moderate-Low	No		-	Authorised	-
Acer	palmatum	Japanese Maple	Shrub	8.5 m	Deciduous	Sun-Shade-Partial shade	spring	no	Moderate	No		In autumn the samaras fall to the ground. Low toxicity level. This species presents a moderate allergenic risk.	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces. * Diversify species (should not be the dominant species).
Amelanchier	lamarckii	Lamarck Serviceberry	Shrub					Yes		Yes		Produces small berries that are non-toxic but can easily be put in the mouth (risk of foreign body inhalation).	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces.
Amelanchier	ovalis	Serviceberry	Shrub	6 m	Deciduous	Sun-Partial shade	spring	yes	Moderate-Low	Yes		Produces small berries that are mildly toxic but can easily be put in the mouth (risk of foreign body inhalation).	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces. * Plant sporadically * Keep children at a distance using permanent protections (fences, low walls, etc.)
Arbutus	unedo	Strawberry Tree	Shrub	12 m	Evergreen	Sun-Partial shade	autumn	yes	Moderate-Low	Yes*		Produces small fruit that are non-toxic but can easily be put in the mouth (risk of foreign body inhalation).	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces.
Cistus	creticus subsp. Corsicus	Corsican Rockrose	Shrub	1.3 m	Evergreen	Sun	spring	no	Moderate-Low	No		Cistus secrete an aromatic resin (labdanum) on leaves and stems. Labdanum is classified as a skin sensitizer and may cause contact reactions in sensitive individuals.	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces. * Plant sporadically * Keep children at a distance using permanent protections (fences, low walls, etc.)
Cistus	salviifolius	Sage-leaved Rockrose	Shrub	0.6 m	Evergreen	Sun-Partial shade	summer	no	Dry	Yes*			Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces. * Plant sporadically * Keep children at a distance using permanent protections (fences, low walls, etc.)
Cistus	x hybridus	Rockrose	Shrub	0.8 m	Evergreen	Sun	Spring	no	Dry	No			Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces. * Plant sporadically * Keep children at a distance using permanent protections (fences, low walls, etc.)
Cistus	x oblongifolius	Oblong-leaved Rockrose	Shrub	0.8 m	Evergreen	Sun	spring	no	Dry	No			Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces. * Plant sporadically * Keep children at a distance using permanent protections (fences, low walls, etc.)
Clethra	alnifolia 'Hummingbird'	Alderleaf Clethra	Shrub	0.8 m	Deciduous	Sun-Partial shade	summer	no	Moderate	No		-	Authorised	-
Cornus	alba	White Dogwood	Shrub	3 m	Deciduous	Sun-Partial shade	spring	yes	Moderate-High	Yes		Mildly toxic species.	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces.
Cornus	mas	Male Dogwood	Shrub	6 m	Deciduous	Sun-Partial shade	winter	yes	High - Low	Yes		Produces small fruit that are non-toxic but can easily be put in the mouth (risk of foreign body inhalation).	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces.
Cornus	sanguinea	Bloodtwig Dogwood	Shrub	0.5 m	Deciduous	Sun-Partial shade	spring	yes	High - Low	Yes		Produces fruit that are mildly toxic but can easily be put in the mouth (risk of foreign body inhalation). A large number of fruits need to be ingested to cause symptoms. Repeated contact with the plant may cause irritation, especially from rubbing the leaves.	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces. * Plant sporadically * Keep children at a distance using permanent protections (fences, low walls, etc.)

Latin name		Common name	Type	Size	Evergreen/Deciduous	Sun exposure	Flowering	Fruiting	Water requirements	Local	Invasive	Risk analysis	Status	Recommendations
Cydonia	oblonga	Quince	Shrub	5.5 m	Deciduous	Sun	spring	yes	Moderate	Yes*		-	Authorised	-
Deutzia	gracilis	Small deutzia	Shrub	1 m	Deciduous	Sun-Partial shade	spring	no	Moderate-High	No		-	Authorised	-
Eleagnus	angustifolia	Bohemian Olive	Shrub	6 m	Deciduous	Sun	spring-summer	yes	Dry	Yes*	Yes	Produces small berries that are non-toxic but can easily be put in the mouth (risk of foreign body inhalation).	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces.
Kerria	japonica	Japanese kerria	Shrub	1.9 m	Deciduous	Shade-Partial shade	Spring	no	Moderate-High	No		-	Authorised	-
Lotus	hirsutus	Bird's-foot Trefoil	Shrub	0.7 m	Evergreen	Sun	winter	yes	Dry	Yes		-	Authorised	-
Myrtus	communis	Common myrtle	Shrub	2 m	Evergreen	Sun-Partial shade	summer	yes	Moderate	Yes*		Produces small berries that are non-toxic but can easily be put in the mouth (risk of foreign body inhalation).	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces.
Osmanthus	x burkwoodii	Burkwood Osmanthus	Shrub	3 m	Evergreen	Shade-Partial shade	spring	no	Moderate	No		Produces small berries that are non-toxic but can easily be put in the mouth (risk of foreign body inhalation).	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces.
Pistacia	lentiscus	Mastic	Shrub	3 m	Evergreen	Sun	spring	yes	Dry	Yes*		Produces small berries that are non-toxic but can easily be put in the mouth (risk of foreign body inhalation).	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces.
Philadelphus	coronarius	Garden Lilac	Shrub	3 m	Deciduous	Sun-Partial shade	spring	no	High - Low	No		-	Authorised	-
Phillyrea	angustifolia	Narrowleaf filaria	Shrub	2.7 m	Evergreen	Sun	spring	yes	Moderate-Low	Yes*		Produces small berries that are non-toxic but can easily be put in the mouth (risk of foreign body inhalation).	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces.
Physocarpus	opulifolius	Physocarpus	Shrub	1.5-2.5m	Deciduous	Sun-Partial shade	spring	no	Moderate	No		-	Authorised	-
Ribes	rubrum	Currant (clustered)	Shrub	1.6 m	Deciduous	Sun-Partial shade	spring	yes	Moderate-High	Yes		Produces small edible berries that can easily be put in the mouth (risk of foreign body inhalation). Consumption is prohibited without a soil contamination assessment	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces. * Soil contamination assessment required for consumption if grown in open ground
Ribes	nigrum	Blackcurrant	Shrub	1.5 m	Deciduous	Sun-Partial shade	spring	yes	Moderate	Yes		Produces small edible berries that can easily be put in the mouth (risk of foreign body inhalation). Consumption is prohibited without a soil contamination assessment	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces. * Soil contamination assessment required for consumption if grown in open ground
Rosmarinus	officinalis	Rosemary	Shrub	1.6 m	Evergreen	Sun	spring	no	Moderate-Low	Yes*		-	Authorised	-
Rubus	idaeus	Raspberry	Shrub	2 m	Deciduous	Sun-Partial shade	spring-summer	yes	Moderate	Yes		Produces small edible fruit that can easily be put in the mouth (risk of foreign body inhalation). Mildly thorny and not pleasant to touch. Consumption is prohibited without a soil contamination assessment	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces. * Soil contamination assessment required for consumption if grown in open ground
Salix	purpurea	Purple Willow	Shrub	1-6m	Deciduous	Sun	spring	no	Moderate-High	Yes		Allergenic species.	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces. * Diversify species (should not be the dominant species).
Sarcococca	confusa	Christmas Box	Shrub	1.5 m	Evergreen	Partial shade	winter to autumn	yes	High	No		Produces small berries that are non-toxic but can easily be put in the mouth (risk of foreign body inhalation).	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces.
Spiraea	thunbergii	Thunberg Spirea	Shrub	1.1 m	Deciduous	Sun-Shade-Partial shade	spring	no	Moderate-Low	No		-	Authorised	-
Spiraea	x arguta	Bridal Wreath	Shrub	2 m	Deciduous	Sun-Partial shade	spring	no	Moderate-Low	No		-	Authorised	-
Spiraea	x vanhouttei	Van Houtte Spirea	Shrub	2.2 m	Semi-evergreen	Sun-Partial shade	spring	no	Moderate-High	No		-	Authorised	-
Vitex	agnus-castus	Chaste Tree	Shrub	4 m	Deciduous	Sun	summer	yes	Moderate-Low	Yes*		Produces small berries that are non-toxic but can easily be put in the mouth (risk of foreign body inhalation).	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces.
Actinidia	Kolomikta	Ornamental Kiwi	Climber									-	Authorised	-
Vitis	Coignetiae	Crimson Glory Vine	Climber									Produces small berries that are non-toxic but can easily be put in the mouth (risk of foreign body inhalation).	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces.
Achillea	umbellata	Umbel Yarrow	Perennial	0.2 m	Semi-evergreen	Sun	spring	no	Dry	No	No	-	Authorised	-
Aegopodium	podagraria	Ground Elder	Perennial	0.45 m	Deciduous	Sun-Shade-Partial shade	spring	no	Moderate-High	Yes	No	-	Authorised	-
Agastache	foeniculum	Giant Hyssop	Perennial	1 m	Deciduous	Sun-Partial shade	summer	no	Moderate-Low	No	No	-	Authorised	-
Ajuga	reprens	Bugle	Perennial	0.25 m	Semi-evergreen	Sun-Shade-Partial shade	spring	no	Moderate-High	Yes	No	-	Authorised	-
Althaea	officinalis	Marsh Mallow	Perennial	1.5 m	Deciduous	Sun	summer	no	High - Low	Yes	No	-	Authorised	-
Artemisia	dracunculus		Perennial								No	-	Authorised	-
Asplenium	trichomanes	Maidenhair Spleenwort	Perennial	0.2 m	Semi-evergreen	Shade-Partial shade		no	Moderate-High	Yes	No	-	Authorised	-
Asphodelus	fistulosus	Onion-leaved Asphodel	Perennial	0.6 m	Deciduous	Sun	spring	no	Dry	Yes*	No	-	Authorised	-
Aster	ageratoides 'Asran'	Ashy Aster	Perennial	0.9 m	Deciduous	Sun-Partial shade	autumn	no	Moderate	No	No	-	Authorised	-
Aster	pyrenaeus 'Lutetia'	Pyrenean Aster	Perennial	0.7 m	Deciduous	Sun-Partial shade	summer	no	Moderate-Low	No	No	-	Authorised	-
Aubrieta	sp.	Aubretia	Perennial								No	-	Authorised	-
Bergenia	purpurascens	Elephant's Ears	Perennial	0.4 m	Evergreen	Sun-Shade-Partial shade	spring	no	Moderate-Low	No	No	-	Authorised	-
Briza	media	Quaking Grass	Perennial	0.5 m	Deciduous	Sun-Partial shade	summer	no	Moderate-Low	Yes	No	-	Authorised	-
Campanula	persicifolia	Peach-leaved Bellflower	Perennial								No	-	Authorised	-
Campanula	portenschlagia	Wall Bellflower	Perennial								No	-	Authorised	-
Catananche	caerulea	Cupid's Dart	Perennial	0.5 m	Deciduous	Sun	summer	no	Dry	Yes	No	-	Authorised	-
Centranthus	ruber	Red Valerian	Perennial	1 m	Evergreen	Sun	spring to autumn	no	Dry	Yes	Yes	-	Authorised	-
Cerastium	biebersteinii	Snow-in-Summer	Perennial								No	-	Authorised	-
Cichorium	intybus	Wild Chicory	Perennial								No	Allergenic species.	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces. * Diversify species (should not be the dominant species).
Clinopodium	methifolium	Calamint	Perennial								No	-	Authorised	-
Coreopsis	sp.	Tickseed	Perennial								No	-	Authorised	-
Cynodon	dactylon	Bermuda Grass	Perennial	0.4 m	Evergreen	Sun	summer	no	Moderate-Low	Yes	No	Allergenic species.	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces. * Diversify species (should not be the dominant species).
Delosperma	cooperi	Cooper's Ice Plant	Perennial								No	-	Authorised	-
Dianthus	carthusianorum	Carthusian Pink	Perennial								No	-	Authorised	-
Dianthus	deltoides	Maiden Pink	Perennial								No	-	Authorised	-
Doellingeria	umbellata	Flat-topped Aster	Perennial								No	-	Authorised	-
Echinacea	pallida	Coneflower	Perennial	0.8 m	Deciduous	Sun	summer	no	Drained	No	No	-	Authorised	-
Epilobium	angustifolium	Rosebay Willowherb	Perennial	1.5 m	Deciduous	Sun-Partial shade	summer	no	High - Low	Yes	No	-	Authorised	-
Epimedium	alpinum	Alpine Barrenwort	Perennial	0.3 m	Evergreen	Shade-Partial shade	spring	no	Moderate-Low	No	No	-	Authorised	-
Erica	x darleyensis	Snow Heather	Perennial	0.5 m	Evergreen	Sun-Partial shade	winter	no	Moderate	No	No	-	Authorised	-
Erigeron	karvinskianus	Mexican Fleabane	Perennial	0.25 m	Semi-evergreen	Sun	spring-summer-autumn	no	Moderate-Low	No	No	-	Authorised	-
Foeniculum	vulgare	Common Fennel	Perennial	1.5 m	Semi-evergreen	Sun	summer	no	Moderate-Low	Yes	No	Allergenic species.	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces. * Diversify species (should not be the dominant species).
Fragaria	vesca	Wild Strawberry	Perennial	0.12 m	Semi-evergreen	Sun-Shade-Partial shade	spring	yes	Moderate	Yes	No	-	Authorised	-
Galium	odoratum	Sweet Woodruff	Perennial	0.15 m	Semi-evergreen	Shade-Partial shade	spring	no	Moderate-High	Yes	No	-	Authorised	-
Gaura	lindheimeri	Gaura	Perennial	1.2 m	Deciduous	Sun	summer-autumn	no	High - Low	No	Yes (DS)	-	Authorised	-

Latin name		Common name	Type	Size	Evergreen/Deciduous	Sun exposure	Flowering	Fruiting	Water requirements	Local	Invasive	Risk analysis	Status	Recommendations
Geranium	macrorrhizum	Big-root Cranesbill	Perennial	0.4 m	Semi-evergreen	Sun-Shade-Partial shade	spring	no	Moderate-Low	No	No	-	Authorised	-
Geranium	nodosum 'Silverwood'	Knotty Cranesbill 'Silverwood'	Perennial	0.45 m	Deciduous	Shade	spring-summer	no	Moderate-Low	Yes	No	-	Authorised	-
Geranium	Rozanne'	Hardy Geranium	Perennial	0.4 m	Deciduous	Sun-Shade-Partial shade	spring-summer-autumn	no	Moderate-Low	No	No	-	Authorised	-
Geranium	sanguineum	Bloody Cranesbill	Perennial	0.3 m	Deciduous	Sun-Partial shade	summer	no	Moderate-Low	Yes	No	-	Authorised	-
Helichrysum	italica	Curry Plant	Perennial	0.55 m	Evergreen	Sun	summer	no	Dry	Yes*	No	-	Authorised	-
Heliopsis	helianthoides	False Sunflower	Perennial	0.8 m	Evergreen	Sun-Partial shade	summer-autumn	no	High	No	No	-	Authorised	-
Heuchera	sanguinea	Coral Bells	Perennial	0.5 m	Semi-evergreen	Sun-Shade-Partial shade	summer	no	Moderate-Low	No	No	-	Authorised	-
Heuchera	villosa	Heuchera	Perennial	0.6 m	Evergreen	Shade-Partial shade	summer	no	Moderate	No	No	-	Authorised	-
Hyssopus	officinalis	Hyssop	Perennial	0.5 m	Semi-evergreen	Sun	summer	no	Dry	Yes*	No	-	Authorised	-
Iberis	sempervirens	Candytuft	Perennial								No	-	Authorised	-
Knautia	arvensis	Small Scabious	Perennial	1 m	Semi-evergreen	Sun	summer	no	Moderate	Yes	No	-	Authorised	-
Lavandula	angustifolia	Common Lavender	Perennial	0.75 m	Evergreen	Sun	summer	no	Dry	Yes*	No	Can cause skin reactions.	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces.
Lavatera/Malva	arborea	Tree Mallow	Perennial	1-3m	Deciduous	Sun	spring	no	Dry	Yes*	No	-	Authorised	-
Lavatera	thuringiaca	Shrubby Mallow	Perennial	1.2 m	Deciduous	Sun	summer	no	Moderate-Low	Yes	No	-	Authorised	-
Leucanthemum	vulgare	Ox-eye Daisy	Perennial								No	-	Authorised	-
Liriope	muscaria	Big Blue Lilyturf	Perennial	0.3 m	Evergreen	Sun-Shade-Partial shade	summer	yes	Moderate-Low	No	Yes	Produces small berries that are non-toxic but can easily be put in the mouth (risk of foreign body inhalation). Allergenic species.	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces. * Diversify species (should not be the dominant species).
Luzula	nivea	Snowy Woodrush	Perennial	0.4 m	Evergreen	Shade-Partial shade	summer	no	Moderate-High	Yes	No	-	Authorised	-
Lysimachia	clethroides	Gooseneck Loosestrife	Perennial	0.8 m	Deciduous	Sun-Shade-Partial shade	summer	no	High	No	No	Contains saponins, mildly toxic substances.	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces.
Lysimachia	nummularia	Creeping Jenny	Perennial	0.1 m	Semi-evergreen	Sun-Partial shade	summer	no	High	Yes	No	-	Authorised	-
Lysimachia	punctata	Dotted Loosestrife	Perennial	0.7 m	Deciduous	Sun-Shade-Partial shade	summer	yes	Moderate-High	No	No	-	Authorised	-
Lysimachia	vulgaris	Yellow Loosestrife	Perennial	1 m	Deciduous	Sun-Partial shade	summer	yes	Moderate-High	Yes	No	-	Authorised	-
Lythrum	salicaria	Purple Loosestrife	Perennial	1.2 m	Deciduous	Sun-Shade-Partial shade	summer	no	Moderate-High	Yes	No	-	Authorised	-
Malva	moschata	Musk Mallow	Perennial	1 m	Deciduous	Sun	spring to autumn	no	Cool	Yes	No	-	Authorised	-
Melica	ciliata	Ciliated Melic	Perennial	0.7 m	Semi-evergreen	Sun	spring-summer	no	Dry	Yes	No	-	Authorised	-
Melissa	officinalis	Lemon Balm	Perennial	0.7 m	Deciduous	Sun-Shade-Partial shade	summer	no	Moderate-High	Yes	No	-	Authorised	-
Mentha	x piperita	Peppermint	Perennial	0.6 m	Deciduous	Sun-Partial shade	summer	no	Moderate-High	Yes*	Yes	-	Authorised	-
Onobrychis	vicifolia	Sainfoin	Perennial								No	-	Authorised	-
Origanum	vulgare	Common Oregano	Perennial	0.6 m	Semi-evergreen	Sun-Partial shade	summer	no	Moderate-Low	Yes	No	-	Authorised	-
Pennisetum	messiacum	Fountain Grass	Perennial	0.8 m	Deciduous	Sun	summer	no	Moderate	No	No	-	Authorised	-
Penstemon	sp.	Turtlehead	Perennial							No	No	-	Authorised	-
Perovskia	atriplicifolia	Russian Sage	Perennial							No	No	-	Authorised	-
Polypodium	vulgare	Common Polypody	Perennial	0.4 m	Semi-evergreen	Sun-Shade-Partial shade		no	Moderate-High	Yes	No	-	Authorised	-
Polystichum	aculeatum	Hard Shield Fern	Perennial	0.7 m	Evergreen	Shade-Partial shade		no	Moderate-High	Yes	No	-	Authorised	-
Polystichum	braunii	Braun's Holly Fern	Perennial	0.6 m	Evergreen	Shade-Partial shade		no	Moderate-High	No	No	-	Authorised	-
Potentilla	alba	White Cinquefoil	Perennial	0.1 m	Deciduous	Sun	spring	no	Moderate-High	Yes	No	-	Authorised	-
Potentilla	aurea	Golden Cinquefoil	Perennial	0.2 m	Deciduous	Sun	summer	no	Moderate-Low	Yes	No	-	Authorised	-
Salvia	lavandulifolia	Lavender-leaved Sage	Perennial	0.4 m	Evergreen	Sun	summer	no	Dry	No*	No	-	Authorised	-
Salvia	microphylla	Graham's Sage	Perennial	0.9 m	Semi-evergreen	Sun	spring-summer-autumn	no	Dry	No	No	Allergenic species. Adults and children suffering from birch, mugwort or grass pollen allergies are at a higher risk.	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces. * Diversify species (should not be the dominant species).
Salvia	nemerosa	Wood Sage	Perennial	0.9 m	Deciduous	Sun-Partial shade	spring-autumn	no	Moderate-Low	No	No		Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces. * Diversify species (should not be the dominant species).
Salvia	officinalis	Common Sage	Perennial	0.8 m	Evergreen	Sun	summer	no	Dry	Yes	No		Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces. * Diversify species (should not be the dominant species).
Salvia	pratensis	Meadow Clary	Perennial								No		Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces. * Diversify species (should not be the dominant species).
Salvia	reptans	Cobalt Myrtle	Perennial	0.9 m	Deciduous	Sun	summer-autumn	no	Dry	No	No	Produces small berries that are non-toxic but can easily be put in the mouth (risk of foreign body inhalation). Allergenic species. Adults and children suffering from birch, mugwort or grass pollen allergies are at a higher risk.	Authorised under conditions	* Avoid areas most frequently used by children. * Prefer peripheral spaces. * Diversify species (should not be the dominant species).
Santolina	chamaecyparissus	Cotton Lavender	Perennial	0.5 m	Evergreen	Sun	summer	no	Moderate-Low	No*	No	-	Authorised	-
Satureja	montana	Winter Savory	Perennial	0.35 m	Deciduous	Sun	summer	no	Dry	Yes*	No	-	Authorised	-
Scabiosa	columbaria	Small Scabious	Perennial	0.7 m	Deciduous	Sun	summer	no	Moderate-Low	Yes	No	-	Authorised	-
Sedum	pachyclados	Afghan Sedum	Perennial								No	-	Authorised	-
Sedum	palmeri	Palmer's Stonecrop	Perennial	0.25 m	Evergreen	Sun	winter-spring	no	Dry	No	No	-	Authorised	-
Sisyrinchium	idaohense	Blue-eyed Grass	Perennial	0.4 m	Evergreen	Sun	summer	yes	Dry	No	No	-	Authorised	-
Sisyrinchium	striatum	Yellow-eyed Grass	Perennial	0.7 m	Evergreen	Sun-Partial shade	summer	yes	Moderate-Low	No	No	-	Authorised	-
Stachys	byzantina	Lamb's Ear	Perennial	0.5 m	Semi-evergreen	Sun	summer	no	Moderate-Low	No	No	-	Authorised	-
Thymus	serpyllum	Wild Thyme	Perennial	0.2 m	Evergreen	Sun-Partial shade	summer	no	Moderate-Low	Yes	No	-	Authorised	-
Thymus	vulgaris	Common Thyme	Perennial	0.25 m	Evergreen	Sun	spring	no	Dry	Yes	No	-	Authorised	-
Tiarella	cordifolia	Heart-leaved Foamflower	Perennial	0.3 m	Evergreen	Shade-Partial shade	spring-summer	no	Moderate-Low	No	No	-	Authorised	-
Tiarella	wherryi	Wherry's Foamflower	Perennial	0.3 m	Semi-evergreen	Shade-Partial shade	spring-summer	no	Moderate-Low	No	No	-	Authorised	-
Trifolium	fragiferum	Strawberry Clover	Perennial	0.2 m	Semi-evergreen	Sun	spring-summer	no	Moderate	Yes	No	-	Authorised	-
Valeriana	officinalis	Common Valerian	Perennial	1.3 m	Deciduous	Sun-Partial shade	spring-summer	no	Moderate-High	Yes	No	-	Authorised	-
Verbena	rigida	Slender Vervain	Perennial	0.6 m	Semi-evergreen	Sun	spring-summer-autumn	no	Moderate-Low	No	No	-	Authorised	-
Veronica	spicata	Spiked Speedwell	Perennial	0.5 m	Semi-evergreen	Sun-Partial shade	summer	no	Moderate-Low	Yes	No	-	Authorised	-
Geranium	robertianum	Herb Robert	Annual	0.35 m	Deciduous	Sun-Shade-Partial shade	spring-autumn	no	Moderate	Yes	Yes?	-	Authorised	-
