Network4Work is an URBACT IV Transfer Network bringing European cities together to improve how local employment systems work.

The project transfers a proven multi-stakeholder model that connects public authorities, businesses and civil society to better respond to labour market challenges.

**Total network budget**  
**EUR 690,577.51**

**EU funding**  
**EUR 538,686.79**

Through cooperation, shared learning and local action, Network4Work helps cities create stronger partnerships and better labour opportunities for their communities.
