1 Impact Navigator Brainstorming

20 minutes

Instructions

Post as many ideas for achieving your vision as you can. Use Post-it notes if possible.

Save the last 5 minutes to try clustering the ideas into categories.

QUICK TIPS

- Avoid judgement
- Encourage wild ideas
- Build on the ideas of others
- Stay focused on the topic
- Be visual if you can
- Go for quantity over quality

Brainstorming Canvas

URBACT Co-funded by the European Union Interreg

2 Impact Navigator Assessment

20 minutes

Instructions

Consider an 'attractive option' as one that offers a high potential for impact and a relatively low challenge in implementation.

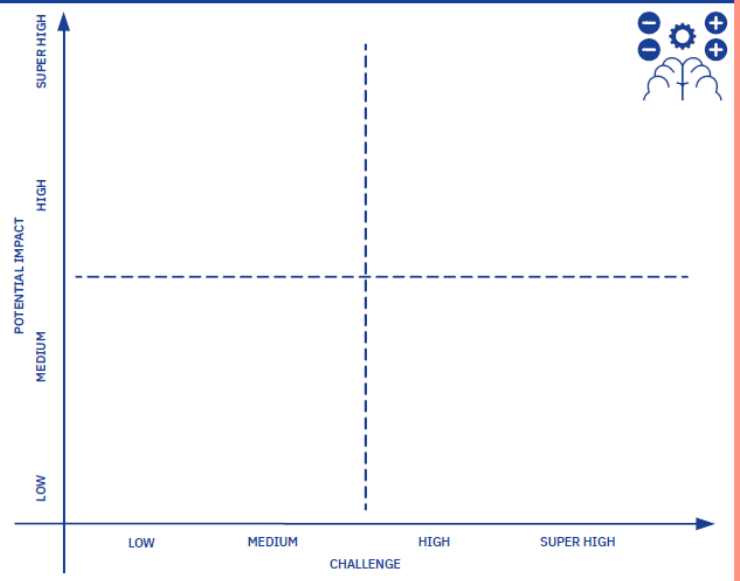

Evaluate the attractiveness of the ideas in the brainstorming canvas based on their potential for impact and how challenging they will be to implement.

Assess each idea's overall potential and challenge and place them on the grid.

Potential: Does the idea address a real unmet need? Will it provide an effective solution - better than current solutions? How many people will it impact? Are these risks high? Medium? Low?

Challenge: How difficult will it be to implement or fund the idea? Are there any other obstacles? Risks? How dependent is it on other players or actions?

Attractiveness Map

URBACT Co-funded by the European Union Interreg

3 Impact Navigator Strategise

20 minutes

Instructions

PURSUE NOW

What ideas should you focus your energy on right now? These should be ideas which will effectively help you achieve your vision.

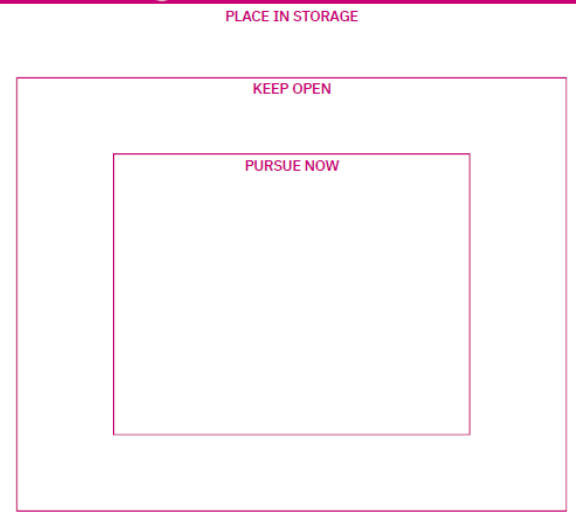

KEEP OPEN / FURTHER DEVELOP

What ideas should you keep open for further development and potential inclusion in your IAP? These could be backup ideas that need further refining and consideration before being included in the plan for executing your vision.

PLACE IN STORAGE

What ideas don't belong in your IAP but could be restored for pursuit at another time or through another forum?
