

Your city in your pocket

CARD4ALL with the motto "Your city in your pocket", is a Transfer Network focused on the implementation of innovative services and technologies through a Citizen Card System

This system allows cities to gather information to improve their services and use it for participative processes. It can be applied to promote social inclusion, local trade, urban mobility and sustainable living, thus creating a Smart City with Smart Citizens. The technology used allows the transferability and replication in different contexts. The participating cities are Gijón as Good Practice City and Aveiro, Clermont Ferrand, Jurmala, Sassari and Suceava as Transfer Cities.

CARD4ALL team wants with this newsletter wish you a healthy new year full in interesting projects !!!

CITY PROFILE

Partner City
Jurmala, Latvia

Unfortunately, we have postponed our face-to-face Transnational meeting in Jurmala. We really hope to visit this beautiful city soon, but for the moment, you can enjoy its astonishing landscape with this video....

RECAP OF A VIRTUAL YEAR

This year 2020 that is about to finish was difficult and strange for everyone, specially for those that have suffered directly the pandemic. At the beginning, when we were preparing our Transnational Meeting in Jurmala planned for March 2020, we could not believe what happened around us and we tried to keep our plans, but swiftly, we realized that it was worse than expected and that we had to change our plans..
